

Endolite's New Savings Opportunity for Hanger Clinic!

For a limited time
save \$1,000
when you
purchase an
Orion3 MPK with
an Echelon foot*.

Orion3 is an advanced microprocessor controlled hydraulic knee, designed to offer exceptional stability on slopes, steps and varying terrains. Featuring a range of stance resistance, Orion3 adapts hydraulic resistance in real time, providing the user with confidence and stability. New simpler programming with the iOS app.

Echelon hydraulic ankle responds to the design specifications that natural movement dictates, fine-tuning joint position to align the body for optimum posture and comfort. New sandal toe design offers a more natural look and provides flexibility of footwear choice.

Take advantage of our "try before you decide" program, contact your Endolite Territory Manager for additional details and to schedule a demo fitting.

Save \$1,000

*Limited time offer, Feb 1, 2019 through Apr 30, 2019. Offer valid in the US to Hanger Clinic locations only. Qualifying purchase: Orion3 MPK and Echelon foot ordered on one purchase order shipping to the same location. Price reduction will not show at time of order but will be reflected on final invoice.
