

A dynamic, multiplanar solution.

AFO^① HelixBand

Fit your patients with a device that truly meets their need.

When is HelixBand™ right for your patient?

HelixBand™ provides an off-the-shelf solution for mild to moderate instability. It's comfortably designed to work exclusively with FreeFlow and Glide.

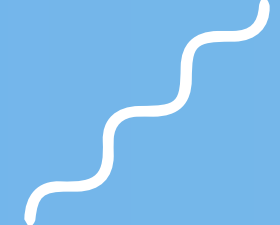

How HelixBand compares to current solutions.

Medial Lateral Instability	Mild to moderate flexible deformity	Severe to rigid deformity
Time to fit	Same Day, In clinic	3-4 week leadtime
# of visits	1 visit	2-3 Visits
Support	Dynamic, multiplanar	Static, multiplanar
Shoe Fit	Easy to fit	Bulky, limited shoe selection
Avg. Reimbursement	Comparable*	Comparable*

*Depending on sagittal plane impairment

 Save time.
