**Foresee Orthopedic - S.A.F.E. II**

- Stores and releases energy throughout its full length
- When the foot bends, the keel compresses, much like a spring
- As the body moves forward, the keel releases its energy, thrusting the leg forward
- Size Availability:
  - 1/4" heel wide, 14-17 cm
  - 3/8" heel narrow, 18-21 cm
- 12 month warranty

**Child's Play Foot**

- Sculpted cosmesis reflect natural appearance of child's foot
- Delrin keel offers shock absorption and a smooth roll over
- Appropriate for all lower limb pediatric amputees, including Symes
- Weight limit 65 kg/144 lbs
- Available in sizes 13-21 cm
- Solid Toe sizes 13-15; Split Toe sizes 16-21
- 24 month warranty on Keel and 12 month warranty on shell

**Keel Selection Instructions:**

1. In the charts below, find the appropriate weight, activity level and limb length factors.
2. Sum these three factors.
3. With the factor sum, find the appropriate keel in the Keel Selection Table and check for availability by foot size.

**Note:** Sizes 13-15 cm do not have split toes cosmesis.

**Warning:** Choosing a lower strength keel than what is suggested based on the above procedure and patient data will void the warranty.

GP Locking Liner

GP Cushion Liner

### Proximal Seal Interface (PSI) Liner

- Unlimited restriction of stretch on the proximal portion of the liner where there is no fabric
- Terry fabric acts as an air wick
- Works well with elevated vacuum systems currently available on the market
- Excellent redistribution of forces will soothe the skin
- Measurement is taken 6 cm up from the distal end
- Warranty: One liner, 12 months; two liners, 24 months

Size	Product No.

### EasyLiner™ Fabric Reinforced Liner

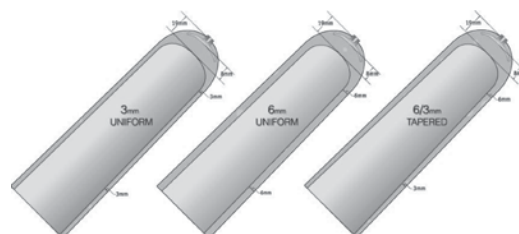

- Combines the softness, strength and elasticity of the ALPS EasyGel offering comfort and durability
- Provides a lower coefficient of friction relieving the skin of any shear force
- Measurement is taken 6 cm up from the distal end
- 12 mm distal pad protects bony prominence
- Contains antioxidants that help with the skin healing process
- Warranty: one liner - 12 months, two liners - 24 months

### Clearpro™

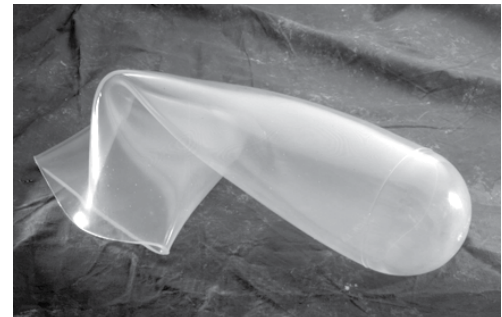

- Fabricated from transparent silicone, allowing constant observation of the residual limb
- Medical grade silicone allows freedom of movement with the added comfort of as little as 1.5 mm of material behind the knee
- Designed with additional silicone along the distal end to reduce pistoning and increase distal stabilization
- Measurement is taken 6 cm up from the distal end
- Warranty: 12 months

Pediatrics

**Thermoliner™ Custom Liner**

- Available in Locking or Cushion
- Easily customize and shape a gel interface to the configuration of the user
- Apply the Thermoliner over the positive and place it in the oven for 30 minutes at 194°F or 90°C and customization is complete
- Can be pulled on like a sock, making donning easier
- Gel durometer and contour provide additional control and support
- Softer version indicated BK's or bony AK's
- Measurement is taken 6 cm up from the distal end
- Warranty: one liner - 12 months, two liners - 24 months

**ESP - Aegis Ultimate Liner**

- Anatomically shaped for maximum comfort
- Pre-flexed design at 43°
- Newly formulated pure silicone gel; does not cold-flow; standard or T.S.B. mold modifications may be used
- Seamless fabric cover eases donning/doffing; reduces pistoning while stretching to accommodate wider limbs
- Uniform 6 mm thickness

### Aegis Streamline Liner - Clear

- This silicone liner features the same anatomical shape as the Aegis Ultimate liner but in a uniform 2 mm wall thickness
- Pre-flexed at 43°
- 10-durometer pigment free silicone to minimize adverse skin reactions; 2 mm thickness
- The locking liner comes with threaded end and adapter nut to accept all current pin options
- Available lengths: 4", 6", 8" or 10" (10" only available in size 20 cm)
- Replace ? with desired length

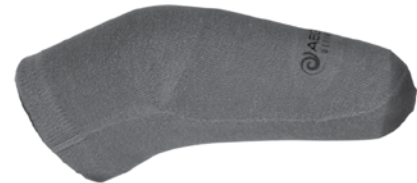

Limb Size	Liner Size	Product No.	
		Cushion	Locking
17-19 cm	14 cm	BK14?G	BK14?S
19-21 cm	16 cm	BK16?G	BK16?S
21-23 cm	18 cm	BK18?G	BK18?S
23-25 cm	20 cm	BK20?G	BK20?S

**To determine proper sizing:**

1. Take circumference measurement 2" (5-6 cm) proximal to distal end of residual limb.
2. Take length measurement from mid-patella tendon to distal end of residual limb.

### Aegis Streamline Liner- Covered

- Anatomically Shaped for maximum comfort
- Pre-flexed design at 43°
- Standard or T.S.B. mold modifications may be used; does not cold-flow
- Compatible with any locking system (free adapter included)
- Seamless fabric cover eases donning/doffing; reduces pistoning while stretching to accommodate wider limbs
- Uniform 2-3 mm thickness

**To determine proper sizing:**

1. Take circumference measurement 2" (5-6 cm) proximal to distal end of residual limb.
2. Take length measurement from mid-patella tendon to distal end of residual limb.

**Euro International - Assurance First Class**

- Medical grade silicone offers skin compatibility and comfort
- Durable bi-elastic single jersey fabric on the outside provides easy handling for your patient
- Offered in both tapered (6 mm distally to 2 mm proximally) and 6 mm uniform version; locking and cushion
- Alleviates pressure over bony prominences
- To select the correct size, measure the circumference of the residual limb approx. 4 cm from the distal end
- Sizes Available: 16, 18, 20, 22, 23.5
- Replace ? with size; please specify when ordering

### Evolution - Chameleon Liner

- Specifically designed for kids - sizing and colors have been chosen for kids; electric blue, hot pink, neon green and fluorescent orange
- Available in both cushion and locking
- Matrix is standard in Chameleon locking liners and as a special order option in the cushion liners
- Silky surface allows the liner to slide on itself
- Unique medical grade silicone formula was specifically developed to ensure product quality and performance
- No cover to tear or run
- No coating to crack, peel or wear off

**Medi USA - Sensitive Liner**

- Designed for the transtibial amputee with standard or conical shaped limbs
- Soft silicone gel provides the ultimate in comfort and durability
- Available in 3 mm and 6 mm profiles
- Accommodates bony prominences as well as fleshy limbs
- Twelve sizing options
- Comfortable fit for the majority of transtibial amputees

Size	Product No.	
	3 mm	6 mm
18 cm	<b>M893118000</b>	<b>M893218000</b>

Please see the adult section for larger sizes.		

*Every Medi liner comes with a distal plug and a locking pin adapter*

**Protect Care Liner**

- Protect Care silicone includes vitamin E, reduces adhesion, and allows easy donning and doffing
- Wall 2 mm thick, thicker distal wall, 10 cm matrix
- Fabric covered; can be used with and without the pin adapter
- Indicated for residual limbs with limitations due to skin problems

### Ossur - Iceross Junior Locking Liner

- Active skin care moisturizes and soothes skin
- Stabilizing matrix and umbrella minimizes pistoning
- Nylon outer cover offers good radial strength combined with comfortable elasticity (strong adhesion between silicone and cover)
- Indicated for young and users with sensitive skin engaging medium impact daily activities
- Children can decorate their liners and personalize them, there are 4 different colored permanent markers included with the liner
- Matrix: 10 cm
- 6 Month Warranty
- Replace ?? with size 12, 14, 16 or 18

Description	Product No.
3 mm Stabilo Junior	<b>I-8501??</b>
3 mm Dermo Junior	<b>I-8502??</b>

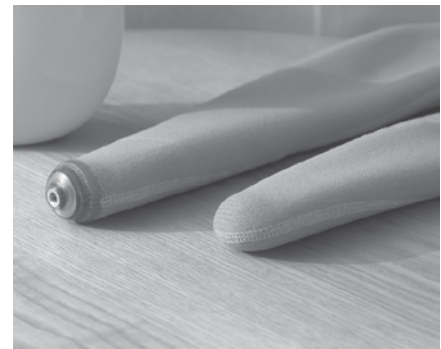

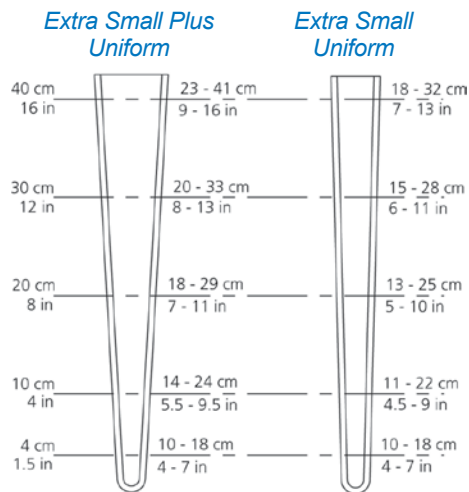

**WillowWood - Alpha<sup>®</sup> P-POD<sup>™</sup> Liners**

- Surrounds the residual limb in a layer of skin-friendly, mineral oil-based gel that contains Vitamin E and is heat-moldable
- Alpha P-POD Liners are sized with young amputees in mind bringing comfort to young amputees for the first time
- The new MAX fabric is three times more abrasion-resistant than many other liners on the market and helps to increase the durability around the trim lines and other common wear areas
- This liner is made for those who are highly active and require a heavy-duty liner and have proven to be ideal for children
- 12 month warranty

**Comfort Products - Endurance CRITERION**

- The Criterion features a smooth skin lining that gives superior comfort against the skin and reduces the chance for popliteal bunching
- For patients without strenuous activity levels, the Criterion is an excellent choice for comfort and durability
- Smoother feel; tougher and more durable neoprene material
- Rugged outer nylon cover; 15" length
- Manufactured using an intensive blind stitching and gluing process that greatly reduces seam failure

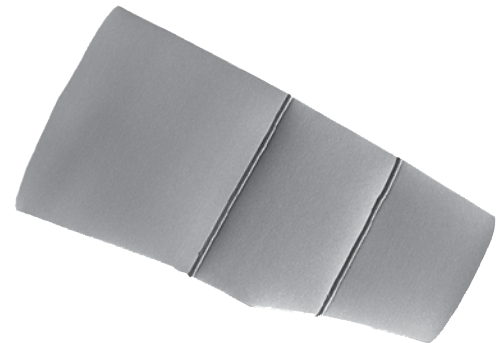

Size	Circ. 4" above KC	Product No.

**Silipos - DuraGel Suspension Sleeve**

- Easy to don and doff
- Mineral oil gel moisturizes and conditions the skin
- Made with DuraGel for added durability
- 3 mm gel thickness

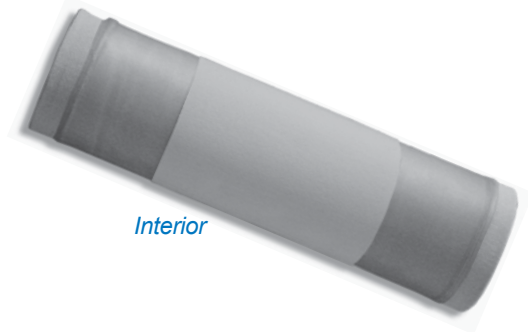

Description	Product No
Suspension Sleeve	<b>18181</b>
Reinforced Sleeve	<b>18191</b>

DuraGel Sizing Guidelines		
	Proximal	Distal
Relaxed	9" (23 cm)	8" (20 cm)
Fully Stretched	15" (38 cm)	13" (33 cm)
Please see the adult section for larger sizes.		

**HD-BK Heavy Duty Suspension Sleeve™**

- Helps to prevent rotation while allowing full range of motion
- Does not bunch-up behind the popliteal area, and keeps skin conditioned
- Circumference: 11"-17"
- Length: 12" (30.5 cm)
- Size: 1

**Product No.** **1310**

**Arm Suspension Sleeve™**

- Helps to maintain suspension
- May be used as BK-Sleeve with children and small adult sizes
- Circumference: 8"-13" (20-30 cm)
- Length: 8<sup>3</sup>/<sub>4</sub>" (22 cm)

**Product No.** **13005**

**SPS - Neoprene**

- Constructed of 1/8" neoprene
- Nylon covering on one side
- Glued seam in front – no air leakage
- Contour shaped to knee
- Lasts longer than latex sleeves
- Beige color

### Cool-Flex AK Suspension Belt

- Gun-Slinger "Hip-Hugger" design of this suspension belt improves fit and comfort
- The Cool-Flex material is breathable, lets moisture out, and lets air in to keep the wearer cool and comfortable
- Universal design for either right or left application
- The Sure-Grip silicone suspension band effectively secures the prosthesis in place
- Reverse trimable Velcro attachment to waistband
- Proximal Brim measurement = 16-20" (40-50 cm)
- Size: Small (Please see the adult section for larger sizes)

Product No. **3LCFAKSM**

**Syncor - TES Belt (Total Elastic Suspension)**

- Total Elastic Suspension; Made of neoprene with nylon on the inside; Velcro compatible fabric on the outside
- Features a low profile, anti-roll, anti-bunch panel
- Cuff area has exposed textured neoprene on inside to securely grasp the socket

**ALPS - Mini-Valve**

- The Mini-Valve essentially is a one way expulsion valve releasing at approximately 1.5 psi, used to release any air trapped within the socket and the limb
- The mini-valve is very easy to use in both laminated and thermoplastic sockets
- Supplied with a rubber seal and a dummy plug for fabrication, and upon completion of fabrication the dummy plug is easily pushed out of the rubber seal and replaced with the valve

Product No.

**LMV-009**

### ESP - Lyn RV Slide

- Suction socket valve with reliable auto expulsion with the added feature of maintained, hands free, open operation
- Slide the operator button in any direction and the valve stays open for easy donning and doffing

Product No. **PA0400**

### Lyn Valve BK

- 1. Drill hole 2. Tap hole 3. Screw in valve
- New or retro-installation outside of socket
- Constructed of lightweight, durable plastic
- Low profile, 7/8" diameter
- Releases air at 1/2 psi without adjustment
- Optional threaded housing used for installation into soft thermoplastics

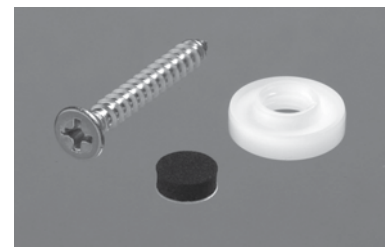

Description	Product No.
Lyn Valve BK	<b>PA0200</b>
Lyn Valve BK with Manual Release	<b>PA0202</b>
BK Valve threaded housing	<b>PA0222</b>
Disassembly Tool	<b>PA-PWSI-T</b>

### Coyote Designs - Grommet Lock

- Ideal for pediatrics upper and lower extremity with easy engagement
- 1" cube in size, can be modified for areas with less space available
- Water resistant, durable, and lightweight
- 100 lb weight limit

Description	Product No.
Grommet lock with 10 mm threaded pin	<b>CD104TM</b>
Grommet lock with 6 mm threaded pin	<b>CD104SM</b>
Grommet Lock with 1/4 x 20" threaded pin	<b>CD104QT</b>
<b>Additional Pins</b>	
Pin with 10 mm threaded pin	<b>CD104P10</b>
Pin with 6 mm threaded pin	<b>CD104P6</b>
Pin with 1/4 x 20" threaded pin	<b>CD104PQ</b>

### Small Air-Lock™ with Pin

- Lock with suction valve built in for superior suspension
- Water resistant, lightweight, and very little wear
- One stage fabrication that separates pin and prosthetic alignment
- Accommodates small limb shapes and upper extremity
- Includes 1.3" standard pin and lamination dummy

Description	Product No.
Air-Lock Lock with Pin	<b>CD103S</b>
1.4" Lock Pin Only	<b>CD103P8</b>
1.6" Lock Pin Only	<b>CD103P9</b>

### Air-Lock Wrench

- Easy to use
- Makes lock maintenance fast and easy
- Equivalent to 13 mm deep well socket

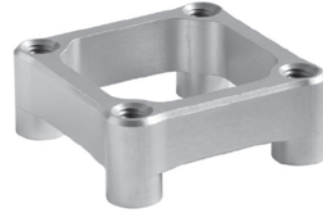

Product No. **CD103WH**

**Aligned 4-Hole Connector**

- Separates pin and prosthetic alignments
- Improves lock function and eliminates need for offset connectors
- One stage fabrication in thermoformed or laminated sockets
- Pediatric Size

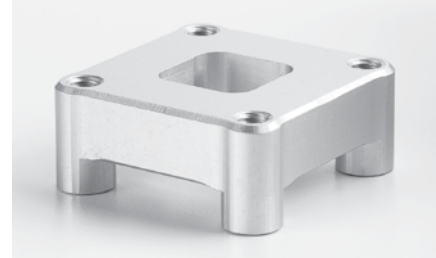

Product No. **CD103PAF**

**Fast 4-Hole Connector**

- Creates quick and easy sockets with built-in 4-hole connector
- Fast four can be used multiple times in thermoformed sockets
- Can be fabricated in thermoformed or laminated sockets
- Pediatric Size

Product No. **CD103PFF**

**Coyote Quick Adhesive**

- Easy to use
- 50 ml
- Sets up extremely fast with no sag, or smell
- Replaces methyl methacrylate for socket repair
- Used for Air-Lock fabrication and reinforcing socks for use with distal pins
- Dispensing gun and mix tips required (see below)

Product No. **CD4150**

**50 ml Dispensing Gun**

- Easy to use
- Drive design provides smooth operation and excellent control
- Easily operated with one hand to start and stop flow

Product No. **CDDMA51**

**Adhesive Mix Tips**

- Quad design mix tip reduces flow pressure and improves consistency of mixture
- Mix tip precisely combines the two component adhesive eliminating the need for hand mixing
- Allows you to dispense the exact amount of adhesive desired, reducing waste

Description	Product No.
6 Pack	<b>CD401</b>
20 Pack	<b>CD402</b>

**Fillauer - MightyMite® Shuttle Locks**

- Small, rugged design for active lightweight amputees
- Tested to 132 lbs
- Removable locking mechanism for easy service and replacement
- Thermoforming or lamination options
- Compatible with 22 mm endoskeletal systems

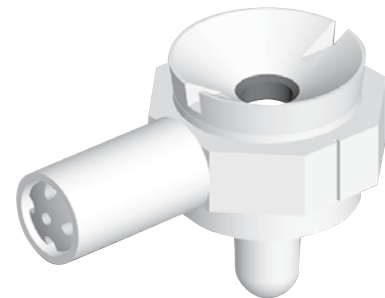

Description	Product No.
Cylindrical Housing Modular Shuttle Lock (Does not include Plunger)	<b>FC100204</b>
Titanium Pyramid Modular Shuttle Lock (Does not include Plunger)	<b>FC100202</b>
1" Plunger 1/4-20 thread	<b>809826</b>
1 1/2" Plunger 1/4-20 thread	<b>809827</b>
1" Plunger metric thread	<b>809826mm</b>
1 1/2" Plunger metric thread	<b>809827mm</b>
Fabrication Kit	<b>125420</b>

**Small Modular Shuttle Lock with Delrin Housing**

- For pediatrics, upper extremities and select light duty transtibials
- Weight limit: 220 lbs

Description	Product No.
Small Modular Shuttle Lock w./ Delrin Housing (Includes 1" Plunger)	<b>125410</b>
Small Modular Shuttle Lock w./ Delrin Housing (Includes 1 1/2" Plunger)	<b>125412</b>
1" Plunger metric thread	<b>809826mm</b>
1 1/2" Plunger metric thread	<b>809827mm</b>
Fabrication Kit	<b>125420</b>

***KISS - Pediatric Delrin KISS® Kit***

- Features a delrin distal base which can be laminated into a socket or vacuum formed in a flexible inner socket
- Includes an aluminum tab to assist in fabrication
- Designed for a 1 socket, 2 liner application
- Total build height: 3 mm

***Pediatric 4-Hole Endo KISS® Kit***

- Features an aluminum 4-hole distal base which also serves as an attachment base for endoskeletal componentry
- Easily retrofits with PDI and Bulldog shuttle locks
- Designed for a 1 socket, 2 liner application
- Total build height: 3 mm

*Pediatric Delrin KISS Kit*

Description	Product No.
Delrin KISS Kit	<b>PKS1/A</b>
4-Hole Endo KISS Kit	<b>PKS2/A</b>
<b>Kit Includes:</b>	
Delrin Distal Base for PKS1/A	<b>PCMP1/A</b>
4-Hole Endo Distal Base for PKS2/A	<b>PCMP2/A</b>
Pediatric Adhesive Placard Set (1)	<b>PCMP5/A</b>
Pediatric Velcro Placard Set (1) (includes Ped. Proximal Nuts & Screws)	<b>PCMP22/A</b>
Pediatric Proximal Strap Set (1)	<b>PCMP7/A</b>
Pediatric Distal Strap Set (1)	<b>PCMP6/A</b>
Pediatric Distal Screw Set (1)	<b>PCMP8/A</b>
Pediatric KISS® Muffler Set (1)	<b>PCMP9/A</b>
10 mm - 6 mm Distal Threaded Insert (1)	<b>PCMP15/A</b>

*Pediatric 4-Hole Endo KISS Kit*

### Ossur - Icelock<sup>®</sup> 700 Series, Small

- Ratchet lock without distal adapter designed to be used in conjunction with Upper Extremity and Pediatric liners
- Extremely low build height and lightweight
- Very strong and durable
- Removable from inside of socket
- Reusable fabrication tools
- 1 Year Warranty

Description	Weight Rating	Product No.
Icelock Ratchet 721 Small		<b>L-721000</b>
<b>Lock Adapters</b>		
Stainless Steel Pyramid	99 lbs	<b>L-773000</b>
Alloy 4-hole Adapter	99 lbs	<b>L-774000</b>
<b>Accessories</b>		
Ratchet Attachment Pin Small		<b>L-792100</b>
Fabrication Tooling Kit		<b>L-780000</b>

### WillowWood - Mini G-Lock

- Designed to meet the needs of upper extremity and pediatric amputees
- Weight limit: 132 lbs
- Standard pin locking mechanism with pin seal; secures locking pin at nearest groove
- Use in Exoskeletal and Endoskeletal prostheses; only use in laminated sockets

**Product No.** **700-MGL480**

Pediatrics

**Comfort Products - Regal Acrylic Prosthetic Sock**

- The Regal™ Acrylic prosthetic sock is made of 98% acrylic and 2% Lycra
- It is a very soft stretchable sock which provides the patient with the latest advancement in fiber technology and knitting methods
- With the combination of fibers it gives a degree of stretch and conformance for the residual limb not possible with other fibers while wicking away moisture to ensure greater comfort
- Can be machine washed and dried in the dryer on delicate cycles
- To order, replace ? with desired ply
- Add 3 to product number for sock with hole in distal end
- Available by special order in 2 ply, 4 ply and 7 ply. Special order sizes from XX-Short to XX-Long and XX-Wide available, as well as a Wide/Mid Length size

### Spacer Socks

- This 1-ply sock has a reciprocal toe that has the seam one inch up from the distal end (like a sheath)
- Toe is rounded and reinforced for good fit and long wear
- Blended cotton polyester fabric is soft, comfortable and absorbent
- Prewashed so size remains true wash after wash
- Machine wash, tumble dry
- 6 per package

Weight	Fits Sizes	Length	Product No.
Narrow lightweight	#B, #0	15"	<b>6S-8035-LT</b>
Narrow heavyweight	#B, #0	15"	<b>6S-8035-HV</b>

Please see adult section for larger sizes

### Stretch Spacer Socks

- Made of cotton/Lycra spandex/nylon
- Like the original Spacer Socks, they feature a very soft and smooth cotton finish with a durable sheath type nylon toe
- Elasticity allows over 50% greater range than non-elastic version
- 6 per package

Size	Fits Sock		Product No.

### X-Wool™ Prosthetic Sock

- A blend of wool, lycra, and featuring X-Static™ — the Silver Fiber, a performance fiber system made with pure silver
- Silver is naturally antimicrobial, enabling X-Static to safely inhibit the growth of odor causing bacteria
- Silver also has the best possible thermodynamic properties, so the patient stays cooler in the summer and warmer in the winter
- Absorbent virgin wool is thick and cushioning. Lycra allows garment to contour without stretching out and accommodates flexion
- Fleece to add softness
- Machine washable, resists shrinkage

Pediatrics

**Silipos - Silosheath Original**

- 2 ply, 2 mm gel
- Minimizes skin breakdown
- Reduces friction, shearing and abrasion on residual limb
- Cushions and protects
- Softens, soothes and improves the appearance of skin
- Product is washable and reusable

**Double Cushion Silosheath™**

- 2 ply, 3 mm gel, extra gel at distal end
- Minimizes skin breakdown
- Reduces friction, shearing and abrasion on residual limb
- Cushions and protects
- Softens, soothes and improves the appearance of skin
- Product is washable and reusable

**Silosheath Extra Life™**

- 3 ply, 2 mm gel, increased durability
- Minimizes skin breakdown
- Reduces friction, shearing and abrasion on residual limb
- Cushions and protects
- Softens, soothes and improves the appearance of skin
- Product is washable and reusable

### Knit-Rite - Compressogrip Elastic Shrinkers

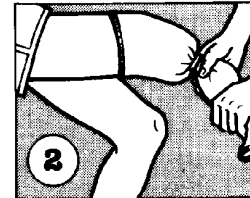

- Tubular elastic compression material for control or prevention of edema following amputation surgery
- Speeds fabrication, fitting and delivery of a prosthesis by uncomplicating application of an elastic bandage
- Approximate single layer pressure at 50% stretch is 20-25 mmHg
- At 100% stretch, compression is doubled. Doubled layers will double compression at both 50% and 100% stretch
- Applications of more than two layers should be monitored as compression may exceed the limits of desired therapeutic pressure
- 92% polyester, 8% spandex; Latex free

3 APPLY THE SECOND LAYER TO A POINT OF DESIRED MAXIMUM COMPRESSION.

### Compressogrip Tubular Elastic Bandage

- Proven effective for: Edema reduction and control
- Interim control of hypertrophic scarring following burn injury
- Dressing and monitoring device retention
- Smoothing irregularities when casting
- Wide range of sizes; cost effective
- All sizes provided in 11 yard (10 meter) rolls
- 92% polyester, 8% spandex
- Machine wash and dry, warm, no bleach
- Fabric will relax 20% in length after first washing

### WE Friction Wrist

- Friction wrist control permits rotation of the terminal device to any position

Description	Diameter	Weight	Product No.
WE-200N Child Size	1 1/2"	1.5 oz	<b>52147</b>
WE-100N Infant Size	1 1/4"	1 oz	<b>52142</b>

### APRL Child Flexion Wrist (WF-50)

- Installs between terminal device and wrist allowing manual positioning of the terminal device
- Flexes at 0 and 36 degrees
- 1 1/16" (2.7 cm) long, 1.5 oz (42 g)
- Recommended for use with the WE-100N
- 1/2" - 20 thread and stub

Product No. **52176**

### E-50F Friction Elbow

- Friction elbows allow manual positioning of the forearm; friction is adjustable
- 2" diameter
- 7 oz weight

Product No. **50558**

### E-50 Elbow

- Child size mechanical elbow with 10 locking positions
- 2" (5.1 cm) diameter; 7.5 oz (210 g)
- 1 3/4" (4.4 cm) Elbow Axis to Socket End

Description	Product No.
E-50 Elbow with Outside Cable Exit	<b>50556</b>
E-50A Elbow with Inside Cable Exit	<b>50557</b>

**PC-50 Polycentric Below Elbow Hinge**

- Useful in compensating for excessive tissue in the cubital fold area
- Hinges are fabricated from special tool steel which is heat treated at the gear tooth ends for strength and then plated to prevent corrosion
- Small, 4.5 oz (126 g) pair

Product No. **51635**

**MA-50 Step Up Below Elbow Hinge**

- Intended for short, below elbow amputees who have a limited range of elbow flexion
- Multiplies the residual limb action of the forearm by a factor of 2
- Hinge is made of tool steel which is heat treated and plated for long life
- Small, 5 oz (140 g) pair

Product No. **51478**

**Northwestern Ring Harnesses**

- Fabricated with high grade dacron web tape, stainless steel anchor ring to prevent binding or bunching
- 4-bar buckles, axilla loop, Y strap and an anterior suspension
- Furnished ready to fit

**Below Elbow Prosthesis Harness**

- Child, 1/2" (1.3 cm)
- Med-Small, 3/4" (1.9 cm)

Description	Product No.
NRH-75 (child)	<b>51586</b>
NRH-85 (small-medium)	<b>51588</b>

**Above Elbow Prosthesis Harness**

- Child, 1/2" (1.3 cm)
- Med-Small, 3/4" (1.9 cm)
