Update to Carbon AFO Offering for Hanger Score

Hanger Clinic, in collaboration with Hanger Supply Chain, is pleased to announce the updated Hanger Score offering for Custom Fit Carbon Pre-Preg AFO's. This selection was based upon a retrospective analysis of utilization, clinical efficacy, and a competitive sourcing process.

The Department of Clinical and Scientific Affairs assembled a panel of high volume Hanger clinical orthotists, considered subject matter experts in this area of practice, from across the country and every zone to assess and rate a broad range of spinal bracing currently available to the U.S. Market. These clinical ratings formed the foundation for the decision-making process.

Ultimately, the selected Ottobock WalkOn line of custom fit carbon pre-preg AFO's represent a composite consideration of clinical performance, historic utilization and pricing, which we feel will satisfy the clinical, service, and overall quality standards that are required to be a part of the Hanger Score program.

OTTOBOCK

- WalkOn
- WalkOn Trimmable
- WalkOn Flex

Zone Supply Chain Managers:

Should you have any questions or concerns, please do not hesitate to contact your Zone Supply Chain Manager.

West Zone:

Karen Thomas
